

REMARKS

In the Office Action the Examiner indicated that Claims 2-4, 11-13, 29-32, 47-49, and 56-58 contained allowable subject matter. The remaining claims have been rejected. By way of the amendments herein, applicant has rewritten the claims in independent form or as depending from one of the claims in independent form including all of the limitations of the base claim and any intervening claims.

Applicant notes that many of the claims were withdrawn from consideration in response to a restriction requirement. Applicant maintains all rights to file a divisional patent application in due course.

As applicant has followed Examiner's suggestion in presenting the allowable subject matter and has canceled all remaining claims, applicant submits that the case is now in condition for allowance. If questions remain, the Examiner is invited to contact the applicant's attorney listed below.

Respectfully submitted,
